

22nd International Workshop on Greenhouse Gas Measurements from Space (IWGGMS-22)

29 June 2026 to 2 July 2026

Scientific Programme

IWGGMS-22

Session 1: Status and results from current missions

Session 2: Status and plans of future missions

Session 3: Retrieval algorithms, priors, and products

Session 4: Calibration and Validation

Session 5: Global to regional flux estimates and atmospheric inversions

Session 6: Urban/local/facility-scale emissions

Session 7: Stakeholder needs and engagement
